DMD

*“Personal attention and concern are always in the best interests of our patients. You deserve gentle, personalized care, and so does each member of your family. We spend extra time to get to know you and answer your questions — helping you feel comfortable with your dental care.”*

### *A complete dental education*

“With the field of cosmetic and restorative dentistry changing so rapidly, we can never consider our education complete — even after practicing for many years. Quality care requires constant, continuing education. Our patients trust us with their care, so we owe it to them to offer the best treatments available.”

**Graduated:** Southern Illinois University School of Dental Medicine, Edwardsville, IL, June 5th, 1980, with Doctor of Dental Medicine

**Elected:** OKU Honorary Dental Society, April, 1980

**Graduated:** Summa Cum Laude, Augustana College, Rock Island IL, May 31, 1975, with a BA in Psychology

**Fellowship:** Master of Arts in Psychology, Southern Illinois University, Edwardsville, IL

**Post Doctoral Dental Residency:** Veterans Administration Hospital, St. Louis, MO

### *The art of beautiful smiles*

“Cosmetic dentistry is so rewarding, because the results are immediate. It’s such a thrill to watch a patient walk out of my office with newfound confidence in a healthy, beautiful smile.

“Careful attention to detail is important in both the art and science of dentistry. This is why our restorations are beautiful and withstand the test time. I never get tired of hearing, ‘I wish I had come here first’ or ‘I can’t believe how easy that was’.”

**Former Assistant Clinical Professor:** In Department of Community Dentistry, Dental Auxiliary Utilization Clinic, Southern Illinois University, School of Dental Medicine, August 1981 to July 1982

**Former Assistant Clinical Professor:** In Restorative Dentistry, Crown and Bridge Section, Southern Illinois University of Dental Medicine, August 1982 to July 1983

### *Quality care from our family to yours*

“As husband-and-wife dentists with children of our own, it’s so gratifying to be able to care for the smiles of the wonderful families right here in our community.”

“I think compassion and understanding are the most important qualities a dentist can possess. Our patients are all individuals, with different personalities and past experiences; as well as time and financial commitment. We respect personal need and will work with each one to achieve the desired results.”

**Member:** American Dental Association, Illinois State Dental Association, Madison District Dental Association, Dental Organization for Conscious Sedation

**Certificate of Merit:** American Association of Endodontics, April, 1980
